

SPECIAL PROMOTION

WM I QUARTIS LAST CALL

Upgrade NOW

FASTER AND EASIER TO OBTAIN MEANINGFUL MEASUREMENT RESULTS

Benefit from our special promotion "WM I Quartis - LAST CALL" until September 30th 2020 and get the la-test version of our measuring software WM I Quartis. Your existing CM programs can be converted cost-effectively.

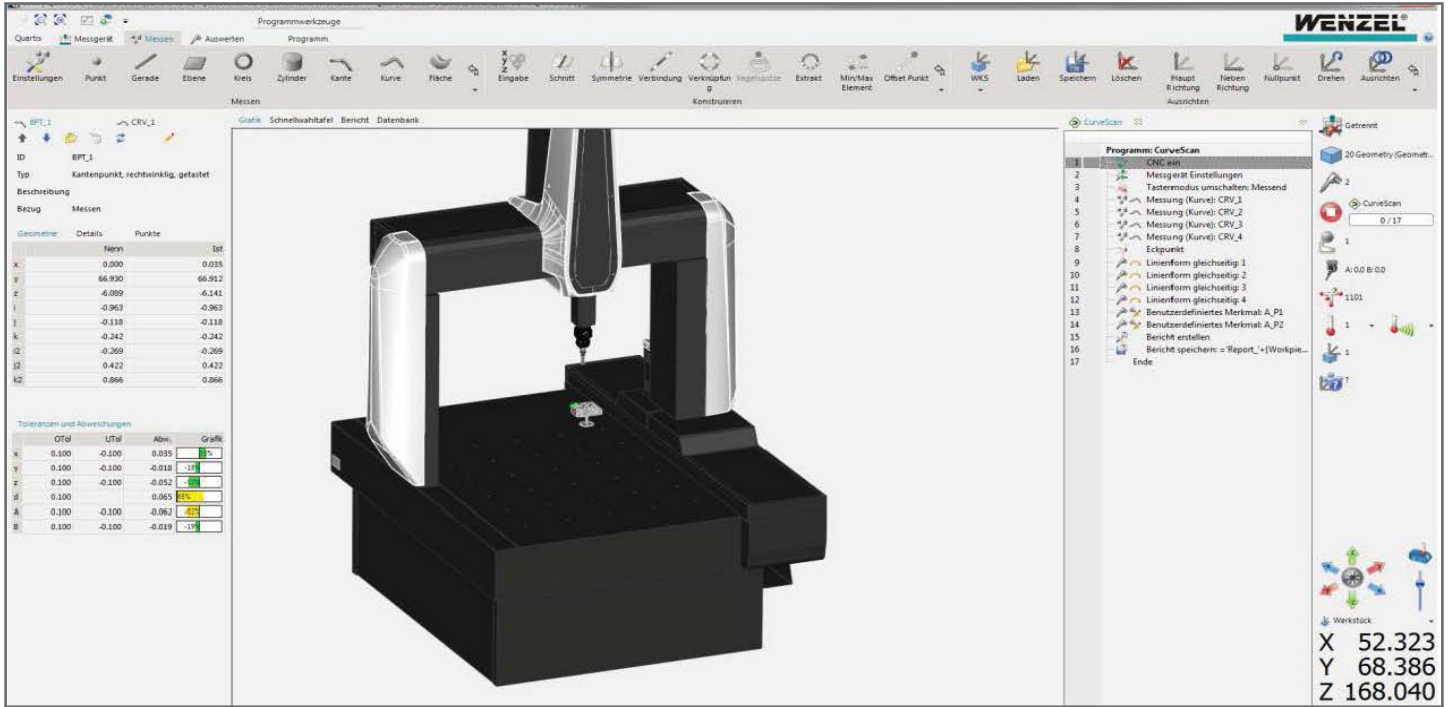

Please note that Metrosoft CM are no longer supported since June 30th 2017.

YOUR BENEFITS AT ONE GLANCE

- The Multi-Function Tool Bar: Clearly designed working area for more effective work
- The Contextual Tabs: The right functions just in time
- The Live Preview: Anticipate the Result
- Virtual Programming & Measuring: Measure where mechanical probing is not possible
- Revolutionary Measurement Reports: Present your results optimally
- Multilanguage: Measure in 16 languages global and transnational
- Upgrade simply realized: Conversion of existing CM programs
- Roughness Measurement: Made economical with multi-sensor measuring machine

YOU WANT TO SIGN UP TO A SOFTWARE CARE CONTRACT?

If you do you will get an additional discount on software and hardware. You will profit immediately from useful functions and improvements with every release. Be always "state-of-the-art". We will be pleased to advise you in all aspects and send you our price information to upgrade to WM I Quartis! Just send an e-mail to retrofit@wenzel-metrology.de

WM | QUARTIS

THE BASIS FOR EFFICIENT MEASUREMENT

- User Interface: Suitable for each task
- DMIS: Seamless integration into the WM | Quartis programming environment
- Measure and Evaluate Curves: Your profiles and contours under control
- Measuring against Nominal CAD Data: Seamless integration of free-form
- Data Management: Clearly structured due to database
- Statistics: Your processes under control
- External Databases: Flexible through multi-user ability, saving large datasets effectively
- Duplex- and More-Column Measuring Machines: Simultaneous, synchronous, collision-free
- Mobile and optical measurement combined
- Portable measurement arm: Operation of various measuring arms
- Automate: Simple integration of your measuring device in your process
- CNC roundtable: Calibration and positioning
- Evaluate: Determine characteristics standardly

BENEFITS SOFTWARE CARE CONTRACT

- Predictable and minimized cost of ownership
- More features and benefits for less money
- Measuring tasks can be solved more quickly
- User and software are integrated in the continuous improvement process
- Be updated to comply with new standards and norms

Our Service Team will be pleased to advise you in all aspect: retrofit@wenzel-metrology.de
